Felt exhibition "Three-dimensionality"

Time: 29.6. – 3.8.2020

Exhibition open every day: Sun-Fri from noon until 6pm, Sat from noon until 5pm

Venue: Kivipankki gallery, Seppolantie 7, Jämsä

The international felt works will come from Estonia. Estonian felt artists have accepted Filtti's invitation as well as the theme for the exhibition. We will have visitors from Estonia at the opening.

Exhibition opening: Sunday 28.6.2020 at 4pm

The theme for the felt exhibition next summer will be three-dimensionality. Felt works can be large wall textiles or sculptural pieces. The requirement is that the felt piece is three-dimensional. Other requirement is that we want new felt works, they cannot have been exhibited or presented in social media, other exhibitions or on the felt maker's own webpage. The theme is challenging and captivating; let your imagination start working.

Registration: by 6.6.2020 via the form on Filtti website
if you have photos of your work, even unfinished work, kindly send by email by 15.6.2020. This is for media release purposes.

All works of Filtti members will be juried. Photographs of the works will be on TV screen at the gallery during the exhibition and after the exhibition on Filtti webpage. Felt graffiti will be in the gallery garden now for 7th time.

We expect to have lots of felt works. We also wish that members, who have not taken part in exhibitions previously, will join now.
