

5/2020

New information of "Three-dimensionality" -felt exhibition 2020

As you know the exhibition was due to be at Kivipankki gallery, but due to covid-19 almost all summer events have been cancelled or at least the number of visitors has been restricted.

We have decided to arrange the exhibition virtually. This greatly fits to the theme of the exhibition. The video is easily placed on our webpage, YouTube and you can also send the link to your friends and colleagues.

We feel this is a possibility not only to Filtti but also to felt. As a small association we are presenting the versatility of felt with a new way.

The arrangements require some changes to the schedule, the board members will do the work. This way felt and Filtti and the annual summer exhibition will not be forgotten.

Here is the schedule:

- registration by 6.6.2020 as originally informed
- works must be in Jämsä latest 22.6.2020 (so 5 days earlier than originally)
- the exhibition will be built 22.6. – 24.6., the photos will be taken 25.6. – 27.6.2020
- the exhibition works will be packed 27.6.2020 and sent back to the makers
- during the original opening day 28.6.2020 we will publish the virtual exhibition on Filtti webpage. The photographer has a plan that the three-dimensionality will be seen on the video
- the still photos will be also taken, they will be seen on photo gallery on Filtti webpage

We hope that all members are as excited of this possibility as we Filtti board members.

We have not yet calculated the registration fee, we will gather all expenses and let you know.

Despite of all inconveniences this year, have a lovely spring, acquire great ideas for your works and make wonderful felt pieces!

Filtti board
