From felt patches to a story – let's do it together!

Come and join us in building a joint quilt work for Filtti members!

We invite all Filtti members to join us in creating a communal From felt patches to a story - work. Each participant will make their own felt patch for the work. When the patches are put together, they form a whole, showing the different handprints, ideas and ways of working on the felt.

An individual patch is a small piece of the story. Together, they create a picture of what Filtti is: people, expertise, creativity, cooperation and shared enthusiasm for felt.

The collaborative work is on display for the first time in Seinäjoki at the Kaleva Naveta Quilt Stories exhibition.

The collaborative work is also related to the theme of the Year of Craft Techniques Quilting, and its journey will continue after completion in various exhibitions and events, telling about the expertise of the felt association and the different creators.

Participation instructions

The size of the felt patch is A5. You can send one or more patches to the work.

The color scheme of the patches is on a black - white - gray scale, you can use one color in your patches as an effect color if you want. The color request aims to give the work a uniform atmosphere, even if there are several creators. You can also make either a flat felt surface or a three-dimensional one, according to your own style. The patches are attached to the base fabric by their upper edges.

The patches will not be returned because the collective work assembled from them will circulate at exhibitions and events.

Participation is free.

When sending the patch, also tell us in a single word or sentence what felting/wool means to you. We will collect the names and meanings of the creators in connection with the work.

Send the scraps in an envelope by September 25, 2026 to

Marjo-Riitta Kaminen-Kandelin
